

## Production Laboratory Technologist/ Biomedical Laboratory Scientist

We are looking for a highly skilled Laboratory Technician or Biomedical Laboratory Scientist to join our production team in Denmark.

### About us

BioPorto is an in vitro diagnostics company that provides tests and antibodies to clinicians and researchers around the world. We use our antibody and assay expertise to transform novel research tools into clinically actionable biomarkers that can make a difference in patients' lives. BioPorto is headquartered in Hellerup, Denmark and is listed on the NASDAQ Copenhagen stock exchange.

### Our people

BioPorto has approximately 35 dedicated employees globally, most of whom work in Hellerup. Our organization is energetic, passionate, and committed to providing a supportive work environment. If you wish to be part of our growing organization, we are eager to hear from you.

### Your role

We are looking for a colleague who will be part of our production team that manufactures immunoassays and antibodies for use in academic and commercial laboratories.

#### Your primary tasks will be:

- ✓ Producing antibodies, ELISA kits and clinical immunoassays
- ✓ Documenting that production follows and complies with company standards
- ✓ Developing and optimizing production methods in collaboration with the rest of the team
- ✓ Developing and completing instructions for production processes
- ✓ QC testing
- ✓ Updating production instructions
- ✓ Ensuring that production equipment and consumables are always ready for production
- ✓ Reviewing and approving production-related documentation

#### You may have:

- ✓ Experience with cell culture techniques
- ✓ Experience with recombinant protein production (expression & purification)
- ✓ Experience with turbidimetry and clinical chemical analyzers

#### Minimum requirements:

- ✓ Biomedical Laboratory Scientist or Laboratory Technician with a minimum of three years of experience
- ✓ Experience in the production of diagnostic assays or other medical devices, and working in a GMP-regulated environment
- ✓ Mastery of pipetting
- ✓ Experience with ELISA assays/formats
- ✓ Proficient with Microsoft Office applications
- ✓ Comfortable reading, speaking, and writing in Danish and English

- ✓ The ability to work independently using standard instructions while maintaining high quality work and attention to detail
- ✓ The ability to identify technical and equipment problems and contribute to troubleshooting and resolution of issues

Personal competencies:

- ✓ Willing to engage in a dynamic work environment
- ✓ Have very good communication skills
- ✓ Enjoy working in an environment where teamwork is critical to support research projects
- ✓ Skilled at staying focused and meeting timelines while managing multiple activities

## Our offer

We offer you an exciting position, with great opportunities for personal and professional development. You will work in a small and informal team that interacts with other groups (R&D, Quality, etc.), where your expertise and suggestions will be valued.

## Additional Information

If you have any questions, please contact our Head of HR, Karen Stendal at +45 50 28 74 91.

Please submit your CV no later than **August 30, 2021**.

Your application will be treated with confidentiality.

Interviews will be performed in parallel to the application period. We reserve the right to proceed with the employment process, if the right candidate is identified during this period.
