

Laboratory Scientist

Are you our newest expert in the production of ELISA kits, antibodies, and clinical immunoassays?

We are looking for a Laboratory Scientist to join our production team in Denmark. We are a diverse team of five employees and a manager. We come from many different countries; hence the working language is English.

We offer a job where you will be involved in many different tasks, ranging from producing in the laboratory to working in the office executing support tasks and participating in projects across the organization.

In this position, you will have the opportunity to utilize your current expertise and expand your competencies. Our production processes include both contract manufacturing and in-house production to deliver high-quality products for our customers.

You will be part of a highly engaged team, with respect for each other and the different knowledge/competencies we bring to the team.

Key responsibilities

Your primary tasks will be:

- Production of ELISA kits, antibodies, and clinical immunoassays
- Performing incoming QC testing
- Reviewing production documentation
- Equipment qualification and process validation
- Handling of NCRs, CAPAs, and SCARs
- Updating production procedures
- Development and optimization of production methods
- Ensuring that our equipment is maintained and calibrated on time.

Your qualifications

- Education: a B.Sc. or higher within engineering, biotechnology, or similar relevant experience
- Knowledge of ELISA production and QC testing
- Knowledge of qualification and validation
- Knowledge of GMP
- Knowledge of Quality Systems Standards ISO13485, FDA CFR21 part 820 and IVD/Medical legislation
- Fluent in English: reading, speaking, and writing
- Team player who will go the extra mile to help a colleague
- Knowledge of pharma, biotech or medical device industry is an advantage.

About us

BioPorto is an in vitro diagnostics company that provides tests and antibodies to clinicians and researchers around the world. We use our antibody and assay expertise to transform novel research tools into clinically actionable biomarkers that can make a difference in patients' lives. BioPorto is headquartered in Hellerup, Denmark and is listed on the NASDAQ Copenhagen stock exchange.

Our people

BioPorto has approximately 40 dedicated employees globally, most of whom work in Hellerup. Our organization is energetic, passionate, and committed to providing a supportive work environment. If you wish to be part of our organization, we are eager to hear from you.

Our offer

We offer you an exciting and varied job, with great opportunities for personal and professional development. You will work in a small and informal team, in close collaboration with the other team members, and you will be able to influence your line of work.

Additional information

If you have any questions, please contact our Production Director, Thomas Stoico Arvedsen at tso@bioporto.com or +45 5167 6178.

Please submit your application and CV in English using the link www.bioporto.com/careers

Your application will be treated with confidentiality.

Interviews will be performed in parallel to the application period. We reserve the right to proceed with the employment process if the right candidate is identified during this period.
