

## Medical Laboratory Technologist for Research & Development

Do you love working in the laboratory and are you excited about being a part of a small team in a cool, innovative company in a beautiful location? Then you might be in for a treat! BioPorto is looking for a motivated and reliable Medical Laboratory Technologist to join our Research & Development team in Denmark.

### About us

At BioPorto we provide tests and antibodies to clinicians and researchers around the world, leveraging our expertise to transform novel research tools into clinically actionable biomarkers designed to make a difference in patients' lives.

BioPorto is headquartered in Hellerup, Denmark, and is listed on the NASDAQ Copenhagen stock exchange.

### Your new team

We have approximately 40 dedicated employees globally, most of whom work in Hellerup - all with a roll-up-your-sleeves attitude and loving the collaborative work environment. You will quickly get to know the whole office including our US colleagues, who regularly visit, adding to our international group of R&D colleagues. For connectivity and day-to-day contact, when not in the same location, we use Teams.

Based in Tuborg Havn in 'the Cube', you will enjoy the light office space and great canteen and hopefully participate in our shared 'post-lunch walk' around the harbour. Our organization is best characterized as energetic, passionate, and committed to providing a supportive work environment. If you can see yourself as a part of our organization, we are eager to hear from you!

### Key responsibilities

As part of our R&D team, you will be deeply involved in the development and evaluation of novel assays from the initial idea to the final product.

Your primary tasks include:

- Conducting development activities for new products
- Performing verification and validation tests for different types of immunoassays
- Operating and maintaining laboratory equipment
- Ensuring traceability of materials used during testing
- Recording data from test results and performing basic statistical analysis
- Preparing samples for testing according to protocols and procedures
- Purchasing and inventorying samples and materials.

## Your qualifications

- Educational background as a Medical Laboratory Technologist, or similar
- Practical experience with clinical biochemistry analyzers and ELISA
- Experience handling samples of human origin
- Basic computer knowledge
- Basic knowledge of chemistry and statistics
- Structured, detail-oriented, and result-oriented mindset
- Ability to work in a team
- Ability to write, read and speak English

## Our offer

We offer you an exciting and varied job, with great opportunities for personal and professional development. You will work in a small and informal team, in close collaboration with the other team members, and you will be able to influence your line of work.

## Additional information

If you have any questions, please contact [hr@bioporto.com](mailto:hr@bioporto.com).

Please send your application and CV in English using the link below no later than **28<sup>th</sup> February 2023**.
